

TOTEM

TOTEM is a wheel balancer with laser measuring arm entering wheel parameters and wheel guidance system directing the wheel to unbalance point. The system memorizes the data and shows precisely the weight position. The machine is equipped with ultrasonic sonar for contactless wheel width measurement and rim recognition system according to the entered parameters.

The completely new operating system based on two buttons and a wheel as a selection cursor makes the machine very intuitive to use.

The machine has a touchscreen LCD monitor making the navigation through the menu even easier and faster. The machine can be equipped with a pneumatic clamp.

- Automatic positioning lock
- Laser measuring arm
- Laser line
- Automatic ultrasonic non-contact rim width acquisition
- ALU programmes
- 2 ALU programmes for motorbikes
- Optimization
- Programme "hidden weight"
- Voice synthesizer
- Touchscreen LCD monitor

Technical Data

Rim diameter range:	10" - 30"
Rim width range:	2" - 15"
Maximum wheel weight	80 kg
Balancing accuracy	1 g
Measuring speed	140 obr/min
Power of the drive engine	80 W
Electric supply	230V / 50 Hz
Pneumatic power supply	8 - 10 bar
Dimensions	1010/1350/1550 mm
Weight	120 kg

Distinctive features:

New interface

Touchscreen monitor

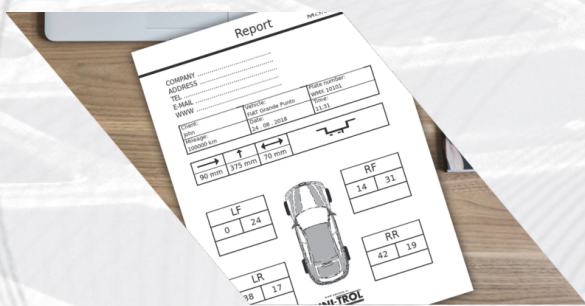

Precise laser indicator

Easy calibration

Keyboard-free navigation

Print to file

Work lighting

Automatic wheel positioning
