

AT-56

For truck, light truck and heavy equipment (agriculture, construction machines) wheels up to 56". Self-centering adaptors are controlled by high pressure hydraulic system of 2-11 MPa working pressure. Built-in manometer indicates pressure value during adaptors rotation. Standard working pressure is 11 MPa, but it is recommended to reduce it for weaker or thinner rims.

Technical Data

Clamping capacity	14" - 46" (po zastosowaniu przedłużek 56")
Max. wheel width	1065 mm
Max. wheel diameter	2300 mm
Bead-breaker pressure force	2500 kg
Maximum wheel weight	1200 kg
Pneumatic supply	130 bar
Table rotation speed	6 / 12 obr./min.
Electric supply	3 x 400V / 50 Hz
Motor power	1,3 / 1,8 kW, 1400 / 3000 obr./min.
Pump motor	1,5 kW, 1400 obr./min.
Weight	860 kg
Wheel clamp	Hydrauliczny
Dimensions	2257/1540/1720
