

PUN-1+P

Dane techniczne

Dimensions	675/550/200
Pneumatic supply	4 do 7 bar
Mandrel stroke	28 mm
Pneumatic power supply	7 do 10 bar
Seat of anvil:	ruchome
Effective force	45 kN (przy ciśnieniu 7 bar)
Working temperature	0°C do 40°C
Weight	60 kg

The PUN-1+P device is designed for riveting brake linings used in automotive vehicles with tubular / steel, brass, copper, or solid aluminum rivets. The driving force in the device is a pneumatic actuator controlled by a pedal.

The PUN-1+P riveter already includes a stand by default.

Optional paid equipment:

- Riveting tool for Al rivets
- Riveting tool for Ø6 rivets
- Riveting tool for Ø8 rivets
- Riveting tool for Ø10 rivets
- Punch for Ø5 rivets
- Punch for Ø6 rivets
- Punch for Ø8 rivets
- Punch for Ø10 rivets
- Rivet anvil for Ø5 and Ø6 rivets
- Rivet anvil for Ø8 rivets
- Rivet anvil for Ø10 rivets
- Punch anvil
- Tool stand
