Balancer WN-04

WN-04 is a balancing machine for one-, two- or three-pieces drive shafts.

Balancing results are shown on the monitor simultaneously for all positions to be corrected.

We offer as well balancers for cranckshafts, fan rotors, electric motor rotors and for other rotational mechanical parts.Balancing machines can be produced on customer's individual order considering balanced parts parameters and specific features given by customer.

Technical Data

balanced shafts length (max.)	3550 mm (więcej na zamówienie)
balanced shafts diameter (max.)	300 mm
max. weight of balanced shafts	100 kg
Balancing accuracy	1 g
measuring speed of shaft	920 obr./min.
Measuring time	ok. 10 s
Power of the drive engine	0,75 kW
Electric supply	3 x 400 V / 50 Hz
Pneumatic power supply	6 - 10 barów
